

SILVER  
*Retreat*

Where luxury, affordability and  
world class service meet.

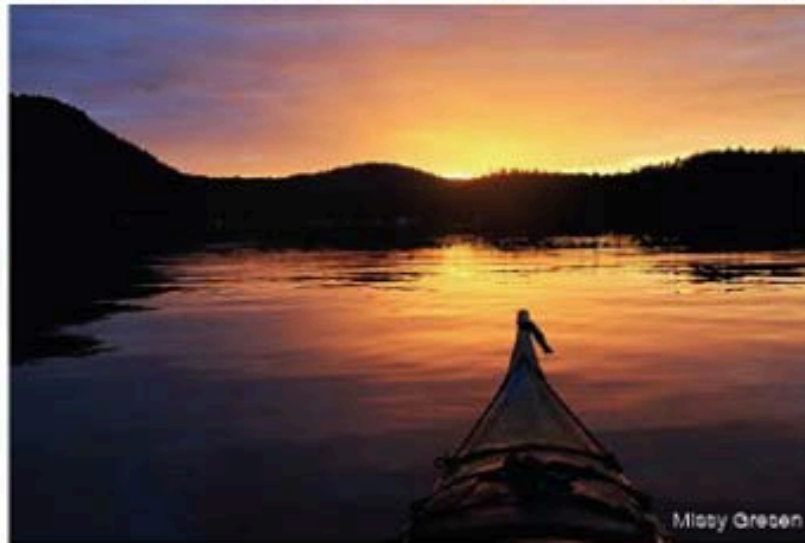

## Company Overview

Bill Schuffenhauer founded this corporate retreat, team building, resort management, and luxury accommodation company in 2010.

## Vision

Silver's approach is to provide an overall incredible custom retreat, catering to different groups based on size, purpose of the trip, and specific needs and requests. Silver eliminates the hassle and uncertainty from planning your trip, while ensuring that your experience will include the finest of dining, amenities, lodging, events, and everything else the area has to offer. No longer will you have to make multiple searches, calls, emails, etc. in an attempt to eventually create the perfect event.

"Life is a forever learning lesson. It's all about how we handle situations every day and not letting things get in our way to stop us from doing the things we want to do in life and to be happy and successful."

Bill Schuffenhauer - Silver Retreats CEO, 3x Olympian,

***Studies show that incentive programs motivate workers and make for a happier environment... If you own or work at a company with a corporate retreat program, count yourself lucky! But not all corporate retreats are equal and some actually do the opposite of motivating your staff.***

***You know, the retreat that is secretly dreaded because you know it entails sitting around a table for two days while you listen to a supposed expert talk about how to maximize supply chain or how to boost morale and create a winning team. If this is you, then it is time to step it up and take your employees on a team building experience they will never forget! AND most importantly will engage them to be more productive, valued and able to get better results for your company.***

## how it began

Bill has spent years as a motivational speaker, inspiring people everywhere to take a passionate approach to daily life. He also has worked extensively to help teach executives from companies of all sizes the nuances of team building strategies that help grow revenues. But during his time traveling as a motivational speaker, Bill specifically noticed that companies, regardless of their location or size, faced similar deficiencies in how they build, cultivate and protect their most important asset – their people.

Bill founded his own company, Silver Retreat, to combat the deficiencies spread by companies with little understanding of how to treat their own people.
