INFIAN'S TIME EHR RECEIVES ONC HIT CERTIFICATION

Richmond, VA July 31, 2013 – *INFIAN* announced today that TIME v7.2 SP17, is compliant with the ONC 2011 Edition criteria and was certified as a Complete EHR on July 31, 2013 by the Certification Commission for Health Information Technology (CCHIT®), an ONC-ACB, in accordance with the applicable Eligible Provider certification criteria adopted by the Secretary of Health and Human Services. The ONC 2011 Edition criteria support the Stage 1 meaningful use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

“By achieving certification of the TIME System we show our strongest commitment to the renal industry,” said Beth Evans, CEO of Infian. “We believe we are the only integrated dialysis EHR and billing system to achieve this certification. Without a doubt it is a milestone event in the history of the TIME System – one for which our team should be immensely proud.”

The ONC HIT Certification Program certifies that Complete EHRs meet all of the 2011 Edition criteria and EHR Modules meet one or more – but not all – of the criteria approved by the Secretary of Health and Human Services (HHS) for either eligible provider or hospital technology.

“CCHIT congratulates companies successfully achieving EHR technology certification,” said Alisa Ray, executive director, CCHIT. “These companies are now able to make their products available to providers wishing to adopt health IT to demonstrate meaningful use and earn Stage 1 incentives.”

TIME’s (v7.2 SP17) certification number is CC-2011-100069-2. ONC HIT certification conferred by CCHIT does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services.

The clinical quality measures to which TIME has been certified include:

NQF 0013, NQF 0018, NQF 0024, NQF 0028, NQF 0038, NQF 0041, NQF 0043, NQF 0059, NQF 0061, NQF 0064, NQF 0421, NQF 0575.

The additional software TIME relied upon to demonstrate compliance includes:

HealthVault, Rcopia, SES Connect.

About CCHIT

The Certification Commission for Health Information Technology (CCHIT®) is an independent, 501(c)3 nonprofit organization with the public mission of accelerating the adoption of robust, interoperable health information technology. The Commission has been certifying electronic health record technology since 2006 and is authorized by the Office of the National Coordinator for Health Information Technology (ONC) of the U.S. Department of Health and Human Services (HHS) as a certification body (ONC-ACB). CCHIT is accredited by the American National Standards Institute (ANSI) as a certification body for the ONC HIT HHS's Permanent Certification Program, formerly known as the permanent program, for electronic health record (EHR) technology and accredited by the National Voluntary Laboratory Accreditation Program (NVLAP) of the National Institute of Standards and Technology (NIST) as an Accredited Testing Laboratory (ATL) to test EHRs. More information on CCHIT and its programs is available at <http://cchit.org>.

About the ONC HIT Certification Program

The ONC HIT Certification Program, provided by the Certification Commission for Health Information Technology (CCHIT®) as an Office of the National Coordinator – Authorized Certification Body (ONC-ACB), evaluates EHR technology that has been tested against criteria and standards adopted by the Secretary of Health and Human Services (HHS). This certification qualifies EHRs as capable of supporting achievement of meaningful use for the Medicare and Medicaid EHR incentive programs authorized by the American Recovery and Reinvestment Act of 2009 (ARRA). ONC HIT certification conferred by the Certification Commission does not represent an endorsement of the certified EHR technology by the U.S. Department of Health and Human Services.
