OnRamp Announces Sponsorship of VMXpo 2013

AUSTIN, TX – OnRamp, a data center operations company headquartered in Austin, TX, announced today its sponsorship of VMXpo 2013, an event hosted by Whitehat Virtual Technologies. The one-day conference, set to take place on September 4th, 2013, at the AT&T Conference Center in Austin, is dedicated to exploring the latest in virtualization and mobile technologies. VMXpo will kick off with a welcome from Whitehat Virtual Technologies' CEO Val King, and a keynote address from the Founder and President of DABCC, Inc., Doug Brown, a nationally recognized Citrix and virtualization expert. OnRamp will be in attendance to showcase its data center services which include colocation, [managed hosting](#), private clouds, disaster recovery and high security hosting.

VMXpo 2013 will feature a business track for executives and business owners, as well as a technical track devoted to virtualization and mobile technologies. With breakout sessions, contests and other special events for Small, Medium and Enterprise businesses, OnRamp will be joined by several well-known vendors from the virtualization space. They include: Citrix, VMware, Microsoft, Dell, AppSense, Frontline Performance Intelligence, Atlantis ILIO, eG Enterprise, NVIDIA, PHD Virtual, Unidesk and Whiptail.

As one of 11 virtualization vendors selected to participate in the conference, OnRamp will host a breakout session led by OnRamp Founder Chad Kissinger. Kissinger's presentation, *The Advantages of Using Data Center Managed Services to Improve Your IT Operations*, will explore the benefits of utilizing data center service providers to add greater efficiencies to a business's IT operations, and will highlight how OnRamp's core competencies as a data center service provider can assist companies in deploying secure and highly flexible IT environments.

OnRamp supports Whitehat Virtual Technologies, a Citrix Managed Service Provider and Virtual Desktop Infrastructure company, with managed hosting solutions to enable their IT operations. OnRamp's managed hosting solutions provide everything needed to keep critical IT infrastructure running securely, reliably and effectively 24/7/365 from OnRamp's state-of-the-art facilities located in Austin, TX and Raleigh, NC. OnRamp's technical staff is experienced all the way up through the application layer and offer [Full7Layer Support](#), going above and beyond routine requests to help customers where they need it most: inside their racks.
