College Station, TX, August 20, 2013– AgniTEK, a nationally-recognized company for their expertise in helping organizations leverage technology to improve businesses, is pleased to announce the launch of a website for Shipwreck Grill at <http://www.shipwreckbcs.com>. The new website was designed and created by AgniTEK associates and is live on the web.

Shipwreck Grill is Bryan and College Station's choice in seafood restaurants. The Shipwreck Grill concept was born from both a passion for restaurants and a love of the Bryan/College Station area. Following graduation from Texas A&M in 1990, Wade and Mary Beckman had the opportunity to run and own restaurants around Texas. This took them away from Bryan/College Station, but with the help of their sons, they were able to create Shipwreck Grill in Bryan some time later. They have a wonderful menu that features crawfish, oysters, fish tacos, burgers, salads, specialty drinks and live entertainment. The owners at Shipwreck Grill like to confidently say that no one wants to serve people more than they do. They are committed to contributing to the community and working hard to make sure that everyone always has a great experience at Shipwreck. To learn more visit their website today.

Shipwreck Grill is also tied to the new Italian restaurant in Bryan, Texas called Amico Nave Ristorante. Amico Nave is the sister restaurant to Shipwreck Grilled and is a tribute to Wade and Mary Beckman's step-father, Tony Salvaggo, and his family who immigrated to the Bryan area from Sicily. At Amico Nave, customers are guaranteed to enjoy a great meal that will leave them wanting more. This is another Beckman family establishment that offers a mix of traditional and modern Italian dishes that will surely

please the palate. AgniTEK also created and designed the Amico Nave website that is available to be viewed at [www.amiconave.com](http://www.amiconave.com).

The high quality Shipwreck Grill website provides the restaurant and management assistance in keeping their customers informed of everything they have to offer. The website features detailed menus and specials that the restaurant offers as well as catering menus. The website also shares their location, hours, and a way to easily email the restaurant owners to get more information. These features was made possible by AgniTEK and their associates.
