

The Employment Institute

The Employment Institute offers multiple nationally recognized certification programs, employment opportunities, soft skill and work readiness training, education services and employment exposure/search services. We work with any individual experiencing a barrier to employment. The Employment Institute works with youth ages 16-years-old and up.

When people leave The Auberle Employment Institute, they understand and embrace the “real world” of work and have an employment opportunity that will enable them to be productive members of the community.

WHY IS THE EMPLOYMENT INSTITUTE UNIQUE?

We Partner With The Business Community

We develop vocational programming with input from area businesses that are in need of workers. We train young people for jobs that already exist and where available workers are in short supply. We establish connections with businesses to help us identify their true needs and then provide the necessary training and support so our candidates are qualified to fill those positions.

Employment Institute services include:

- Nationally recognized certification programs including: culinary arts, construction safety and environmental remediation
- Professional landscaping employment opportunities
- Established job opportunities with employers, including UPMC
- Career and aptitude assessments
- Driver's Training
- Assistance with job searches and career exposure
- Post-secondary planning and education support
- Soft skills and work readiness development
- Assistance with transportation issues

Access to All Necessary Services

We truly work with any individual experiencing a barrier to employment, including individuals struggling with drug and alcohol abuse or mental health concerns. If needed, participants of The Employment Institute are connected to our clinical and mental health services and drug and alcohol counseling to help them overcome challenges that are keeping them from successful careers.
