

University Hacker Olympics 2013

BY

Sponsorship Opportunities

	Gold	Platinum
	\$10,000	\$25,000
Hackathon team (max 5 students per team) We recommend sending 2 engineers per team to the event to actively participate in the hackathon with the students. The best way to engage is to come up with a hackathon idea (1 idea per team) prior to the event and present this to 5-10 students that meet your hiring criteria prior to the event. The most creative ideas tend to attract the most students.	1 Team	2 Teams
Resume book of all 100 student profile 1 week prior to the event		
Signage and swag at the event		
Tickets for Engineers or Founders	2	4
Platform credits to all students		
1.5 hour code challenge or tech talk for all students Students love code challenges, especially head-to-head challenges. These challenges can help you identify the top students in the batch that are most relevant to your business.		
Opportunity for founder/CTO/Senior Executive to judge the hackathon
