

## National User Conference 2013

iPatientCare, Inc. is pleased to invite you to join us for iPatientCare National User Conference (NUCON 2013) to be held on November 15-17, 2013 as a Virtual Event to bring together the iPatientCare channel partners, end users, certified professionals, business partners, and employees of iPatientCare to attend educational sessions, attend the exhibition, and have some fun together as a group.

This year's NUCON will allow physicians to attend the full conference right from their office and along with your colleagues.

We will address all agenda items which we typically do every year, we would have interesting and interactive sessions to share the knowledge of using iPatientCare product suite; however, everything would be virtual this year. Expect to learn a lot on Meaningful Use Stage 2 as it kicks in from year 2014. Additionally, iPatientCare has evolved its product suite in terms of the practice management, patient portal; iPhone and iPad based clinical solutions, and introduced the complete Revenue Cycle Management services. Hence, a lot more show-and-tell would happen over these new modules and services. Finally, look forward to great presentations and demonstrations of integrated product solutions, like every year.

An exhibition showcasing cutting edge technologies which get embedded in iPatientCare, making iPatientCare a further superior integrated application platform in the market, has been a regular part of this Annual event. There will be Meaningful Use add-on products, innovative solutions, equipments, devices, and service providers. Plan on having coffee breaks, snacks, drinks, and meals with our sponsors and exhibitors!

Finally, remember the fun we had last year in the Chicago CLOUDS over cocktails and dinner from the 95th floor of the John Hancock Tower? Well, this year we plan an online event, and hence, an online game and a lucky draw to win attractive prizes! Get ready for welcoming the year-end holidays with wine-and-cheese over educational sessions and virtual visit to exhibitor/sponsors.

We look forward to seeing you at NUCON 2013.
