

MEDIA ALERT

Who Evo Eau Reusable Water Filtration Bottles, The Basic Needs Initiative, together with CEO Scott Moore and Media Director Daniel Clauser.

What Evo Eau product launch party, announcing the release of their revolutionary water filtration bottles that filters 99% of contaminants from tap water. Hors d'oeuvres, champagne and spirits will be provided. Business casual dress attire.

Where The Laguna Gallery of Contemporary Art
Located on the corner of Legion and Pacific Coast Highway.
611 South Coast Hwy, Laguna Beach, CA 92651

When September 8, 2013. Event will begin at 5 with a champagne toast and presentation around 7.

Why Many water filters simply do not do what you expect them to. Evo Eau bottles do. With a 99% contaminant filtration rate, these new reusable water bottles look to solve some of the world's basic water problems at their source. 5% profit from each bottle sold by Evo Eau will go towards providing relief-grade water filters in developing nations around the world.
