Designed and tested to **shut off activated fire sprinkler heads instantly**, Shutgun is your best defense against the expensive and hazardous effects of water damage.

Water from a sprinkler head can exceed 25 gallons per minute causing thousands of dollars in damage every minute left running. Simply place the jaws in the opened sprinkler with one hand, leaving the other free for safety. Squeeze the handle once or twice and the water will stop immediately.

A simple and elegant solution to a messy problem.

Tested in facilities and with fire departments.

Shutgun is your best defense against the hazard of water damage turning thousands of dollars in clean up and resources into a minor problem, quickly fixed.

Shutgun is a small investment that can save you thousands, can you afford not to have one?

Over **8,000** Shutguns have been purchased by major hotel chains such as **Marriott, Ritz Carlton** as well as **major universities, hospitals** and leading **commercial property companies** *because they work.*

You can purchase up to 40 Shutguns online at **www.shutgun.ca**
