## The Williams 6 Difference

- We are experienced EMS professionals dedicated to building healthy, long-term relationships.
- Providing EMS solutions is our core business, not an afterthought.
- Our regional and global footprint provides you with multiple sourcing alternatives.
- Our objective is to match you with the **Right Partner, in the Right Location, with the Right Solution.**

**THE LIFE OF YOUR COMPANY** is directly linked to the health and performance of your supply chain. Choosing the right partner is essential to your success.

- Do you have "mindshare" with your current EMS Partner?
- Does your partner provide the level of focus and flexibility that you deserve?
- Does your partner take a proactive approach to address your quality and cost of ownership challenges?

## EMS SOURCING SOLUTIONS FOR OVER 20 YEARS

Our team has an average of 20 years experience leading multi-million dollar divisions at both high growth OEMs and Fortune 200 EMS companies. Our experience ensures that your sourcing decision will yield the most effective supply chain solution in the industry.

## WILLIAMS 6 MANUFACTURING NETWORK

Williams 6 has a global network of EMS partners well positioned to support your needs. Our non-exclusive representation approach allows us to focus on securing the best partner for your specific situation. Our sole objective is to collaborate with you and design the most effective supply chain solution possible.

- Strategically located to provide you with easy access to world-class sites
- Focused expertise and quality systems to serve key industries:  
Automotive | Defense & Aerospace | Medical
- Speciality services and process offerings:  
Conformal Coating | Potting | Epoxy & Underfill Design | Reliability Testing | Test Development
- Socially responsible partners committed to the environment and community
