Workshop Goals and Objectives

This workshop will be the fifth seminar in a series of nation-wide events focusing on regional and community infrastructure resilience challenges associated with reducing impacts from man-made and natural disasters.

This program continues the dialog between members of the engineering, infrastructure, architecture, emergency management, medical, construction, first responder, and community planning fields through a series of presentations and panel sessions covering public-private partnerships

Attendance Cost

SAME/TISP Member	\$30.00
Non-SAME/TISP Member	\$45.00
At-The-Door Non-SAME/TISP Member	\$45.00
