

Maintaining SMS Compliance in an MRO and 145 Organisations

TRAINING COURSE DETAILS

INTRODUCTION

The forthcoming introduction of EASA is driving Safety Management System requirements within 145 organisations, (supplementing the existing GCAA requirements).

145 Organisations will need to review their existing Safety Management System Practices to ensure they meet full compliance.

This training looks beyond compliance with the regulatory obligations and considers how the organization may optimize the SMS processes and behaviours to drive not just safety but improved efficiencies throughout the organization.

Delegates will benefit from an intensive 1 day training focusing on the specific needs and challenges which face a 145 organization across all elements of the SMS system.

Detailed Content / Topics - The following Subjects will be addressed

- SMS General Introduction
- Abbreviations
- Understanding the ICAO, GCAA & EASA requirements and how they will impact a 145 organisation.
- Organisational Roles, Safety Review Board, Action Groups and Safety Reps.
- Managing SMS related competencies to comply with 145
- SMS Management and Supporting Documentation.
- The Safety Manager and the role of Quality Assurance and Safety Assurance
- Marketing of our SMS by raising Awareness and Communication
- Safety Culture and Effective SMS Training
- Reactive and Proactive Hazard Identification in a 145
- Risk Assessment & Mitigation
- The Role of Emergency Response in a 145 organisation
- Dealing with the Challenge of Delivering Effective SMS Training
