

WHY PARTNER WITH REMKE?

BECAUSE REMKE DELIVERS QUALITY AMERICAN-MADE PRODUCTS

For 50 years Remke Industries has been manufacturing one of the largest & most diverse lines of electrical connectors in our suburban Chicago facility.

When you choose Remke, you say goodbye to logistical nightmares like delivery times and product quality from offshore producers. Made-in-the-USA means we're literally & physically closer to you so that any of our cord connectors, wire mesh grips, or molded connectors and cordsets can be delivered when you need them.

Made in America is important to us. It isn't a slogan – it's why at least 95% of our products are manufactured in our Illinois facility. We're keeping the jobs in the USA and we're shipping product to you from Chicago – not somewhere overseas.

Remke manufactures the finest cord connectors, wire mesh grips and molded connectors. We are committed to the highest standard of quality, meeting or exceeding our customer's requirements and expectations. For over 15 years, Remke has been ISO certified and we remain compliant with all new and revised ISO standards.

THE BOTTOM LINE

- **AT REMKE CUSTOMERS ARE NOT AN ACCOUNT NUMBER.**

Our customers are people trying to do their job to the best of their ability and we go the extra mile for them. Whether it is a quote, or rush delivery, a product sample, or customizing a product to meet specific needs we get our customers the solutions they need when they're needed.

- **AT REMKE YOU GET HUMANS ON DEMAND.**

You might get voicemail but you will also get a return call quickly. Remke isn't some big, impersonal multinational operation. We're a mid-sized company based in suburban Chicago and we're big enough to get the job done, but small enough to take your business seriously and personally.

- **AT REMKE WE EMBRACE A CODE OF ETHICS.**

Fair & honest & competitive prices. High-quality products that provide value for your money. A professional, well-trained staff with a Can-Do philosophy who approach your project with a sense of urgency. Low minimum orders so that you can buy just what you need. A company who stands behind our products.

FAST INSTALLATION & SECURE CONNECTIONS

Tuff-Seal™ Cord Connectors, Cable Glands & Wire Mesh Grips

The Remke line of Tuff-Seal products provide the cable strain relief you need, are in-stock and ready to ship. Made in the USA, Remke cord connectors & wire mesh cable grips are ideally suited for use either as part of your plant infrastructure or as part of the equipment your company sells. Our family of standard Tuff-Seal products comes in more sizes and variations than any offered in the industry.

**LOWER COSTS
IMPROVE PRODUCTIVITY
ELIMINATE DOWNTIME**

Tuff-Link™ Molded Connectors & Cordsets

The Remke line of Tuff-Link Molded Connectors & Cordsets are Made in the USA. Our quick-disconnect connectors meet the standards you need for use with sensors and control devices to provide easier initial installations & quick component replacement in all types of industrial applications. Our family of standard Tuff-Link products offers a wide-range of molded connectors & cordset options.

DEVELOPING PRODUCTS THAT MEET YOUR PRECISE REQUIREMENTS

The Remke Flexible Solutions Center is totally dedicated to designing custom products, specials, adaptations & variations. If you have an idea or a need, Remke is the best at taking your precise requirements and creating a solution.

At the Remke Flexible Solutions Center solving the problem is job 1 and no order is 'too small'. That's just how we do it – how we've always done it – and how we always will. Your unique solution will come from the team at our suburban Chicago location – and your product will be manufactured there too. No overseas red tape to deal with.

At the Remke Flexible Solutions Center there is no extra charge for our time to design your custom solution.
