

SPILL PLANNING, RESPONSE AND RECOVERY

NEW IDEAS. VALUABLE RESULTS.

- Date:** Thursday, September 26, 2013
- Time:** 7:30 am – 12:00 pm
- Location:** Allen County Sanitary Engineering Training Room
3230 North Cole Street – Lima, Ohio
- Hosted by:** Elemental Services & Consulting – 740.815.9660
Allied Environmental Services – 419.227.4004
- Audience:** Refineries, Pipelines, Chemical Companies, Trucking Firms, Insurance & Adjusters, other PRP's or Owners. Please, no contractors or consultants.

Join us for a half (½) day event that will showcase how real solutions are bringing real change to spill planning, response and recovery operations. See how a *“boots on the ground”* perspective in planning and response can save you significant time, money, environmental impact and reputation.

The ideas and tactics to be presented are not just another rehashing of stale ideas that don't work, but emerged from a complete re-thinking of why we do what we do. This re-thinking led to the development of proven tactics and countermeasures based on math and science.

- *“I've been listening to presentations like this for 20 years and this is the first time I've heard anything new in a long time,”* regional paving contractor
- *“You've unlocked the secret to spill response,”* EPA OSC
- *“More emergency responders could definitely benefit from this training – Was the best ER training I have taken,”* facility responder

AGENDA

7:30 am – 8:00 am	Registration and Continental Breakfast
8:00 am – 9:00 am	The Current State of Spill Planning & Response – Why Change is Needed
