SportPed series

The SportPed Series is as green as it gets! Available in 1, 2, and 4-person models, it features our aerodynamically designed, tinted windshield for UV protection and wind resistance. Other standard features for this series include our deluxe marine-grade seats, your choice of butterfly or bicycle-style steering wheel, 7-speed gearing, heavy duty chrome spoke wheels and white wall tires all on a powder coated go-green frame. You can even add our 42-speed option for tackling those hills, along with many more upgrade options.

Make it a SportPed Hybrid by adding our PD-750 electric assist motor option. Imagine riding a bicycle that you can

pedal until needing some assistance, and then just push the throttle lever and have the electric motor kick in! You'll get the exercise you need and the motorized assistance you want - when you want it!

Looking for something to transport your favorite pet or pets? Take a look at our SportPed e-Two Long Frame with our Rhoades Waggin' rear cargo bed. Plenty of room for two large dogs - or just about anything else you can think to put back there!

CycleCar series

The Cycle Car Series is the original Rhoades Car 4-wheel quadracycle featuring the classic styling that put Rhoades Car on the map. It goes everywhere a normal 2-wheel bicycle is allowed and is available in 1-person, 2-person and 4-person models.

Imagine having the stability of 4 wheels under you while you pedal to work or the local market or take the family for a ride! What a great way to get exercise and stay

in touch with the ones you love. Maybe that's why there are Rhoades Car 4-wheel bikes on literally every continent. Standard features include a 2" steel jig-welded frame, bicycle-style steering wheel, 1-speed gearing, molded plastic seat, disc brake and your choice of black mag or heavy duty chrome spoke wheels. But you don't have to settle for the standard features. You can add as many options as you like including upgraded seats, canopy top, electric assist motor and 42-speed gearing to name just a few!

For those looking for added cargo space, consider our Cycle Car 4W2P Long Frame, with its super large rear cargo area that you can build out anyway you see fit! It's the length of our 4-person model without the rear seats. Great for hobbyists who like to tinker and create their own rear cargo "floor plan."

GoBoy series

The fastest growing series in the Rhoades Car fleet, all three GoBoy models offer an exceptional way to get exercise, tone up and see the great outdoors while pedaling from a standard bicycle position. Available in 1-person and 2-person models.

Our newest model - the Rhoades ComfortRide - offers EVERYONE the opportunity to ride! This quad bike gives you the 4-wheel stability you have been looking for and an optional 22" wide comfort seat that feels like you're sitting in your easy chair! Our padded 22" x 9" comfort seat can handle 300+ lbs. Add in our 2" jig-welded steel frame, and you can see why it's the sturdiest 4-wheel quad ride out there! Add our optional fenders for a really cool look!

If you're looking for a little extra cargo

room to haul things around, then our GoBoy Z1 is the perfect solution. This little workhorse has additional space in the back where you can put our waterproof cargo box to carry groceries - or anything else for that matter! You can even build your own box to take your favorite pet along!

If you'd prefer the option of riding with another person, then our 2-seat GoBoy X2 is the one for you. Now you and a companion can get exercise and enjoy a cool breeze while you catch up on what's going on in the world! You just won't believe the fun you'll have! Consider adding our optional PD-750 electric assist motor to kick in when you get tired or see a hill approaching! Now that's a great ride!

All three GoBoy models are equipped with standard features including your choice of butterfly or bicycle-style handlebars, black mag wheels, white wall tires, disc brake, and 1-speed transmission. Want even more options? The sky is the limit! You can jazz them up with deluxe seats with back rests, 6 or 42-speed gearing*, fenders, cargo box and more.
