

HOW TO USE DIGITAL SIGNAGE: EMPLOYEE COMMUNICATIONS EDITION

WHAT?

Digital signage solutions are used in businesses to enhance levels of employee engagement and increase communication with all staff functions. Use modern, dynamic and engaging digital screens to:

Encourage	personal and professional development
Create	higher levels of employee engagement
Communicate	employer branding
Connect	with all staff functions at all locations
Inspire	employees across all sites with best practices
Raise awareness	of corporate social responsibility
Reinforce	workplace health and safety
Share	company performance & success stories
Motivate	staff with benefits and rewards
Inform	employees of events and team building days
Educate	staff with key training messages
Welcome	visitors and guests
Interact	with staff that are non-email users
Immediately	send messages from management

“ Amscreen is unique in that we alone develop both our hardware and our software - this patented technology allows full motion content to be quickly and simply delivered, scheduled and optimised for your employees and internal communications ”
Lord Sugar - Amscreen Chairman

WHERE?

Deploying digital screens in multiple locations will ensure communication strategies are implemented across the entire workforce, maximising effectiveness and compliance levels.

- Staff rooms
- Entrance atriums
