## Clean Earth of Williamsport

208 Colvin Road, Williamsport, PA 17701

T 570.505.1958 | F 570.505.1981

Clean Earth beneficially reuses approximately 98% of the material it processes.

### Facility Type

Residual Waste R&D facility that accepts solid wastes from gas exploration / well installation

### Treatment Platform

Chemical stabilization of waste and solidification of non-hazardous drill cuttings and pipeline cuttings

### Permit

PA WMGR097 R017

### Capacity

1,000 tons per day  
\* Form U not required

### Acceptable Material

- 810** - Drill Cuttings (oil and gas drill cuttings)
- 807** - Basic Sediment (oil and gas production storage impurities)
- 803** - Drilling Fluid Waste (oil and gas drilling mud, other drilling fluids other than fracing fluid and spent lubricant)
- 801** - Drilling Fluids, Residuals (other than those under 802 - 810; includes drill cuttings from monitoring well and drinking water construction)
- 506** - Contaminated Soil/Debris/Spill Residue (non-petroleum)

### At other facilities in our network we also handle these materials:

Contaminated Soil	Asbestos
Oily Waste	Hazardous Liquid (bulk/non-bulk)
Drums	Industrial Waste
Solvents	Waste Water (bulk/non-bulk)
Aerosols	Pharmaceuticals
Flammable Solids	Lab Packs
Drill Cuttings	Non-Hazardous Materials and PCBs

### Hours of Operation

24 hours a day, 7 days a week

### Services

Material Management	Laboratory Analysis
Planning	Manifesting
Technical Assistance	Sampling
Transloading	Loading
Transportation	Recycling

### Facility Access

I-80 to US-15 N, Beautys Run Road Exit

### Processed Materials

PA Act II Site Beneficial Reuse
