

# ProfitKey International Now Offering Payroll and Human Resource Information System (HRIS)

Salem, NH, October 17, 2013 – ProfitKey International, a leader in ERP software for discrete manufacturing companies for over 30 years, has entered into an agreement with Optimum Solutions to integrate their Payroll, HR and Time & Attendance Software with ProfitKey's Rapid Response Manufacturing ERP system.

Optimum Solutions has been a trusted provider for Payroll and Human Resources Information Systems (HRIS) for over 20 years. All of Optimum's products have been developed internally and all software applications share one master employee database, something truly noteworthy in the industry.

The company has been built on the belief that service comes first. Optimum provides customers with dedicated and knowledgeable support experts who respond efficiently and accurately to their clients' needs. The in house development team works side by side with the support team to give every customer individual and dedicated attention.

"Every company needs strong Payroll and Human Resource solutions to manage the entire employee lifecycle," said Joe Di Zazzo, ProfitKey President and CEO. He added, "HR is something our customers have requested for a long time and adding in a seamlessly integrated Payroll option makes the offering even more beneficial. We wanted to be sure we had the right partner to deliver the best solution possible and after extensive customer and market research, Optimum's solution stood head and shoulders above all other systems."

## **About ProfitKey International**

For over 34 years, [ProfitKey International](#) has been a leader in providing manufacturing ERP (Enterprise Resource Planning) software and professional services for small to mid-sized companies who are looking to increase overall efficiency; especially, in the areas of shop floor scheduling, communications, inventory management, labor reporting, cost tracking, and more.

## **About Optimum Solutions**
