LaunchStar™ ACO Solution

LaunchMed's LaunchStar® ACO Solution is a web-based, business intelligence tool designed to meet the analytical and reporting needs of ACOs. LaunchStar® enhances EHRs or works as a stand-alone solution, creating actionable data for improving clinical and financial outcomes. Key features of LaunchStar® include:

GENERAL FEATURES

- **Affordable, subscription-based** service
- **Access from any web browser**
- **HIPAA-compliant**
- **Manage access** via multiple user roles, permissions, and settings
- **Retrieval, processing, and mapping of CMS ACO data** (CCLF files)
- **Scalable** to support organizations of all sizes
- **Tracks ACO program quality measures**
- **Access clinical data from care provided inside and outside of the ACO** not otherwise available through EHRs

FOR THE ORGANIZATION

- **Management dashboards** monitor quality and financial metrics, ACO program compliance, performance against benchmark, physician and

group performance against peers, and high-cost patients and services

- **Filters and aggregates financial and clinical data** at the ACO, participant, and physician levels
- **Management reporting tool** for customized reporting
- **Produces customizable patient work lists** to support outreach initiatives

FOR PHYSICIANS & PARTICIPANTS

- **Physician web-based access to patient data at the point of care**
- **Patient profiles include** claims, encounter, and pharmacy history and clinical care gaps
- **Identifies high-cost patients and services**
- **Physician access to personal report cards**, tracking performance against ACO peers
- **Generates printable patient report cards** to remind patients of care gaps
