

Minneapolis Data Center

DataBank's South Minneapolis data center is located in Edina, MN. The area, known as the technology district, boasts a number of prominent IT companies and industry partners. The site, formally VeriSpace was acquired in March of 2013, has undergone a \$4+ Million augmentation increasing data center floor space, enhancing power and cooling, as well as upgrading office and shared customer amenities. The site houses and provides services to a wide variety of local and statewide businesses. On-site security staff patrol and monitor the building 24/7/365.

Key Features

DataBank's South Minneapolis facility offers clients a top-tier data center environment in a secure office park setting:

- **South Minneapolis Location** - Edina, MN - Technology Business District
- **Robust Power** - Diverse power entries are fed by two separate Xcel Energy grids
- **Large Footprint** - 18,000+ square feet of customer data center space
- **On-Site Power Generation** - Two dedicated 2MW diesel power generators stand ready as backup to utility power
- **Carrier Accessible** - Multiple tier-1 carriers are available on-site
- **Redundant Cooling** - Dual systems fed by two chilled water loops provides almost 1000 tons of cooling capacity
- **Business Environment** - The data center is located in a 'Class A' building with a variety of tenant amenities

Security & Compliance

DataBank clients benefit from several layers of physical security, including 24/7/365 on-site security personnel. All DataBank facilities perform annual SSAE-16 audits, and will work with customers to provide any additional custom-layered security measures to meet their own PCI-DSS, HIPAA, FISMA, or Safe Harbor compliance requirements. DataBank's customer service is unparalleled and always available to address any concerns in an expedient and friendly manner. On-site support is available via remote hands and all client requests are handled promptly.
