

# REXFORD SURGICAL INSTITUTE

As an accredited outpatient surgical facility, RSI offers the most advanced medical technology. We also offer skilled care by experienced and highly selected medical professionals in a personal and caring environment. Elective outpatient surgery affords the benefits of lower risks of exposure to infectious agents. Additionally, healthcare errors of omission which might be more common in larger settings such as a hospital are reduced in an outpatient surgical facility. Quality personalized care provided at RSI ensures maximum patient comfort, privacy, and safety. Our patients receive one on one care from our nurses, surgeons, physicians, anesthesiologists, and all other ancillary staff.
