# Venue

eCommerce that's easier to manage & easier to track – custom online stores that are fully integrated with Salesforce

Venue delivers the power of Salesforce administration to your eCommerce efforts. You leverage the products, prices, reports, and dashboards that you've already setup in Salesforce and use them to run your eCommerce website.

Venue extends Salesforce capabilities with a shopping cart, drag-and-drop product image management and flexible pricing options including coupons and volume discounts. You can accept credit cards for online payments and track your eCommerce transactions alongside your direct sales – all within Salesforce.
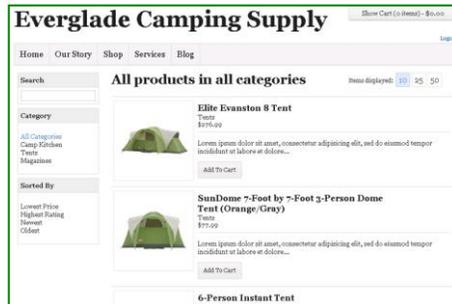

Create custom eCommerce websites that are fully integrated with Salesforce
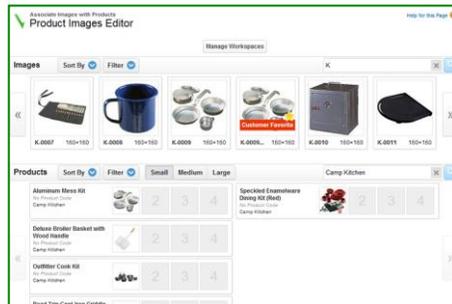

Add images to products using the drag-and-drop image manager

Benefits:

- Create a fully custom eCommerce website
- Flexible pricing options via coupons and volume discounts
- All sales are tracked in Salesforce
- Easy to administer using familiar Salesforce interface
- Only one place to manage products, prices, and customers

About Kinetic Growth

Kinetic Growth brings together expertise in eCommerce, payment processing, web development, and Salesforce technology to create innovative solutions for you and your organization.

In addition to Venue, Kinetic Growth also offers Encore to automate renewal quotes & subscription billing and Done for advanced task management.

Highlights

- **Enterprise eCommerce**
  Create fully custom eCommerce websites to sell online. Sell B2B and B2C.

- **Secure payments**
  Accept credit cards and PayPal. All payment information is stored and transmitted securely using encryption and secure protocols.

- **Flexible pricing**
  You can set prices for individual customers or distributors. Venue supports coupons and volume discounts.

- **Easy website administration**
  Products, prices, and customer information are stored in your Salesforce database so there are no separate lists to maintain. Venue gives you a drag-and-drop image manager to manage your product images.

- **Fully integrated**
  All online transactions are stored in Salesforce so you can track all your sales in Salesforce.
