

SPECIFICATION SHEETS

Multi-temp Digital Cordless Kettle

A stylish delight in gorgeous stainless steel, the Cuisinart Multi-temp Digital Cordless Kettle features quality design, digital controls and a soft blue illuminated water level indicator. It allows you to set the temperature of your water between 85°C and 100°C, in increments of five degrees, to ensure you'll always get the best-tasting coffee or tea.

The Cuisinart Multi-temp Digital Cordless Kettle has a cordless 360 degree base allowing for left or right handed use. It also features a built-in automatic Eco feature which turns the kettle to standby mode when not in use. The kettle features an easy to clean anti-scale feature in the spout and the rapid boil element is concealed so reduces potential damage by limescale.

- Simple to use control panel with preset temperature options, 85°C and 100°C
- Manual controls allow the setting of the perfect temperature for herbal, green and other speciality teas and coffees
- Automatic eco feature turns kettle to standby when not in use
- Easy view illuminated water level indicator & 360°C cordless base for left or right hand use
- Large spout design for safe and accurate filling and pouring
- Easy to clean, removable anti-scale filter & concealed element reduces lime scale
- 3kw rapid boil element and safety boil dry cut out
- Digital stainless steel kettle with temperature selection options
- Hinged lid with sealing system
- 1.7L capacity
- Matching 4-Slice Classic Toaster available – sold separately
- 2300W

Cuisinart®

Soup Maker/ Blender

Revolutionary in its design, the Cuisinart Soup Maker sautés, cooks, simmers and blends in one so you can create delicious, home-made soups, sauces and chutneys in as little as 20 minutes. The built in non-stick heater plate provides the perfect surface to sauté ingredients, simmer or boil soups, and with a touch of a button, will blend it all to a perfect consistency.

With its powerful stainless steel blades, the Soup Maker can also be used as a regular blender, perfect for smoothies, frozen cocktails and crushing ice.

- Combine cooking and blending in one. Simply add ingredients and let the soup maker do the rest
- Powerful 1000W motor
- 1.75L thermal heat resistant glass jug maintains temperature after the cooking cycle has finished
- 1.4L capacity for soup and hot liquids
- 1.75L capacity for cool liquids
- Easy to use intelligent control panel with time and temperature controls
- Audible beep at the end of the cooking cycle
- Includes measuring cup

COOKING FUNCTION:

- Powerful heating element for fast cooking
- 3 x Preprogrammed cooking temperatures: 80°C, 90°C and 110°C
- Special “Stir” button mixes ingredients during cooking
- Timer from 1-30 mins

BLENDER FUNCTION

- 4 speed options with pulse function for perfect blending (11 000 rpm – 21 000 rpm)
- Powerful stainless steel blades allow the blender to mix hard foods and crush ice

Recommended RSP: R2999.95

Cuisinart®

Duo Blender

The cleverly designed Cuisinart Duo Blender has blending and food processing attachments, allowing you to grate, chop, slice, whip, blend and mix, all in one machine. With its aluminium die-cast housing and ultra-sharp patented blades, the best performance is guaranteed.

- The indispensable tool for mixing, whipping up a milk-shake or a smoothie, mixing a soup and even crushing ice
- High performance 600W motor with die-cast metal housing and stainless steel collar
- Sleek 4 speed electronic touchpad controls with blue indicators: ON/OFF, high, low, pulse and ice crush controls
- Standby mode and automatic 2 minute auto-stop feature
- Thermal shock-resistant borosilicate glass jar and a patented ultra-sharp star-shaped stainless steel blade
- Sturdy and stable heavy-duty motor base will not “walk” on your counter – even during ice crushing! Used for both the blender jar and the food processor bowl
- With anti-slip feet and cord storage
- Dishwasher safe removable parts

BLENDER FUNCTION:

- 1.25L capacity jar with unique wide mouth design
- Tightfitting double sealed lid with measuring cap
- Leak-proof rubber gasket holds the glass jar snugly in position for safe operation
- Die cast metal housing

MINI FOOD PROCESSOR FUNCTION:

- 1.1L/ 3 cup capacity bowl
- Ultra sharp stainless steel chopping and mixing blade, ideal for preparing chopped ingredients and mixing sauces and dressings
- Reversible slicing and grating disc for fine grating or perfect 2mm slices
- Whipping/emulsifying disc, ideal for creams, mayonnaise and sauces

Recommended RSP: R2499.95

Cuisinart®

Elite Collection 3.7L Food Processor

The 3.7L Cuisinart Food Processor delivers the next big kitchen innovation. It's like having a professional assistant in your kitchen. With a revolutionary push-button lid locking system this food processor is best in class. As well as mixing, blending, chopping, and kneading, it also grates and slices.

The versatile slicing disc can be adjusted from thick to fine and the large and small chopping blades lock in place inside the work bowl to keep things safe when you're pouring.

The clever seal tight technology creates a leak proof seal between each of the 3 interlocking bowls allowing you to create complete recipes with no cleaning in-between processes. And thanks to the professional grade motor and die-cast metal housing this processor is built to last. Included with this elegant workhorse is a beautiful lockable storage box for perfect storage of all the processors accessories.

- Commercial grade die cast metal processor with ultra-powerful 1500W induction motor
- Durable high grade Japanese stainless steel blades and discs
- BladeLock™ system holds blade safely in place for easy pouring with no fuss
- 3 interlocking bowls with maximum liquid capacity for convenient, versatile processing
- Seal Tight™ Advantage system creates a leak proof seal between bowls
- The 3 bowl system with independent bowl operation and easy pour spouts allow you to create complete recipes with no cleaning in-between processes

Cuisinart®

- Intelligent motor with special dough function works harder with larger quantities such as dough in order to maintain speed and efficiency. This function automatically adjusts the motors power and speed to the dough mixture at hand.
- For lesser quantities like sauces, dips and dressings use the small bowl
- For larger quantities and slicing and grating tasks use the medium or large bowls
- Easy to clean intuitive touch pad controls and dishwasher safe removable parts
- With pulse mode for more control
- A selection of recipe ideas and easy to follow instructions
- Finger mark-free finish
- 20 year motor guarantee and 5 year parts guarantee

ACCESSORIES INCLUDED:

- Small feed tube with drizzle holes for adding smaller ingredients or liquids whilst processing
- Extra-large feed tube for adding whole fruits and vegetables, minimising preparation time
- Easily removable lid with push button locking system
- Small 1.1L bowl for sauces, dips and dressings
- Medium 3.1L bowl for slicing and grating
- Large 3.7L bowl for kneading dough and processing larger quantities
- Adjustable slicing disc lets you choose the slice size, it's like having 16 disks in 1! (1mm to 6mm)
- Reversible grating disc to create thick or fine shred (4mm to 6mm)
- Dough blade for kneading and aerating gluten
- Small and large chopping blades for puréeing, chopping and mixing ingredients
- Stainless steel whisk with planetary action
- Storage box for safe storage of blades and discs
