WEBSITE SOLUTIONS COMPANY ANNOUNCES WEBSITE FOR STEAK & RIB SEASONING

Big Buck Bienski Spice is a steak and rib seasoning company that recently gained a new online resource that was created by the AgniTEK associates.

College Station, TX, December 3, 2013– AgniTEK, a nationally-recognized company for their expertise in helping organizations leverage technology to improve businesses, is pleased to announce the launch of a website for Big Buck Bienski Spice at <http://www.bigbuckbienskispice.com>. The new website was designed and created by AgniTEK associates and is live on the web.

Big Buck Bienski Spice offers their customers the chance to experience the taste of a true trophy seasoning with their Big Buck Bienski Steak and Rib Seasoning. This company was started after an avid hunter and hunt guide, Tim Bienski, used to prepare the meals for the people he was guiding. In 2004, he killed the buck of a lifetime on the trophy mule deer hunt. That Wild Horse Buck now serves as the label of his company. This and his love of hunting led Tim Bienski to make sure the flavor of his steak and rib seasoning was perfect. After numerous attempts, Bienski finally landed his masterpiece seasoning. This seasoning helps make the perfect steak, venison, pork, fajitas, hamburgers, and even veggies. To learn more about Big Buck Bienski Spice, visit their website today.

Big Buck Bienski Spice is under the same ownership as A+ Glass and Mirror. These two websites were both created by the associates at AgniTEK and were launched at the same time. There is a link from the A+ Glass and Mirror website at www.aplusglassandmirror.net to the Big Buck Bienski Spice page. This way Tim Bienski's customers with A+ Glass and Mirror have the opportunity to learn about his other great product.

Big Buck Bienski Seasoning is available for purchase online in single bottles and in a case of 12 bottles. Customers can easily purchase the seasoning on the website at the click of a button. The website also features articles that were written about this award winning seasoning that customers can view as well as a contact form that allows customers to leave comments or request more information on the product. All of these features were made possible by AgniTEK and their associates.
