### WHY LEASE?

#### CASH IS KING

Cash is every balance sheet's ultimate asset. So, before using valuable cash for a POS solution, take a look at the benefits of leasing and how they can keep cash in the bank as well as help you fulfill your hardware acquisition strategy.

#### PRESERVE YOUR CREDIT LINES

By taking advantage of a leasing program, you can keep your existing lines of credit and borrowing availability untouched and ready-to-use for other operational and short-term financing demands.

#### OVERCOMING A LIMITED BUDGET

Need a POS solution now but are limited by a challenged budget? Leasing can help you acquire your equipment sooner by spreading acquisition costs over time with low periodic payments billed over multiple budget cycles.

#### MAXIMIZE EARLY ROI

A POS Tablet lease allows your business to repurpose its cash on hand for use with initiatives that might have a higher ROI and for other business opportunities that can lead to short-term growth and profitability.

#### TAX BENEFITS

In addition to profitability and finance, certain leasing solutions also have the potential to qualify for favorable tax treatment. Consult your tax advisor for more details.
