

Ardent Concepts launches new website for Connect-R BGA Sockets: <http://www.bgaconnect-r.com>

Ardent Concepts is inviting visitors to explore a new website for BGA sockets. The new website has been designed to provide a user-friendly experience with improved navigation and functionality throughout, allowing customers access to comprehensive product information, data, specifications and videos.

SEABROOK, NH, DECEMBER 2013

BGAConnect-R.com provides access to detailed product information to help customers understand the complete range of Connect-R socket solutions from Ardent Concepts. [Specifications](#), [signal integrity](#) reports, mechanical drawings and videos work together to provide a complete overview of Connect-R products used across a wide range of segments, including BGA sockets, interposers, board stack connectors, and optical engine connectors.

Created with the user experience in mind, BGAConnect-R.com has been designed to make the site compatible with today's browsers and mobile devices.

Customers can now benefit from richer online content that is easier to navigate, assisting in the planning process for future BGA socket needs. In addition, visitors can stay informed with the latest [news](#), product updates, and videos about Connect-R technology from Ardent Concepts. Customers are also invited to request samples and quotes through BGAConnect-R.com.
