WEBSITE SOLUTIONS COMPANY ANNOUNCES WEBSITE FOR NEW ENVIRONMENTAL REMEDIATION COMPANY

Tersi Technologies, a new company with a proven environmental remediation process founded in Bryan, Texas, recently gained an online resource that was created by AgniTEK.

College Station, TX, December 19, 2013– AgniTEK, a nationally-recognized company for their expertise in helping organizations leverage technology to improve businesses, is pleased to announce the launch of a website for Tersi Technologies at <http://www.tersitechnologies.com>. The new website was designed and created by the associates at AgniTEK and is live on the web.

Tersi Technologies is a new company with a proven environmental remediation process. Founded in Bryan, TX in August 2013, the chief objective for Tersi Technologies is to provide an environmentally-friendly, cost-effective approach to hydrocarbon remediation across many platforms. Additionally, in providing environmentally-sound products, Tersi's mission is to reduce human health risks and ecological damage. Tersi's bioremediation processing solution is HCS-200, a non-hazardous, water-based remediation chemicals for the elimination of hydrocarbons. Tersi's solutions are manufactured at their Houston facility. They currently perform business operations in-house, while working closely with their business development partners. To learn more about Tersi Technologies, visit their website today.

The Tersi Technologies website is a high tech and very organized online resource that serves as a great way to market the company to their target audience. The website features high resolution graphics and videos that help show customers what all they do. The site also provides a contact page where interested customers can fill out a form to gain more information or just leave feedback for the company. All of these features were made possible by AgniTEK and their associates.

AgniTEK is a full service website and software solutions company serving Texas companies for over 15 years. They deliver reliability, consistency, simplicity and value in website services and software application development work. AgniTEK has been named a five-time Newman 10 Award winner and three-time Aggie 100 Award winner.
