Management Dashboard Software

- Workstation Portal
- Portal server
- Database Table Maintenance
- Portal Monitor
- Real-time security alerts
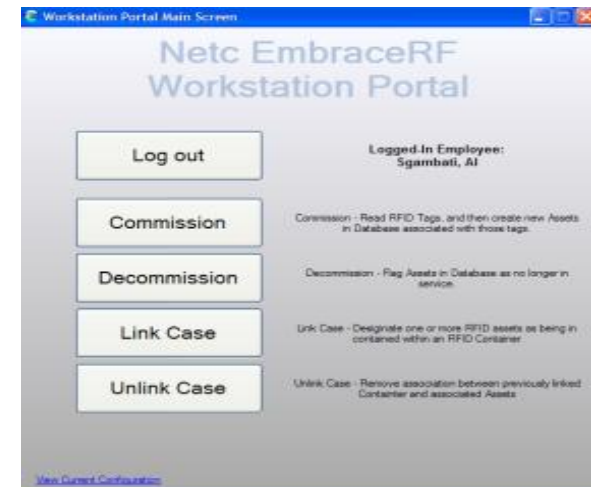

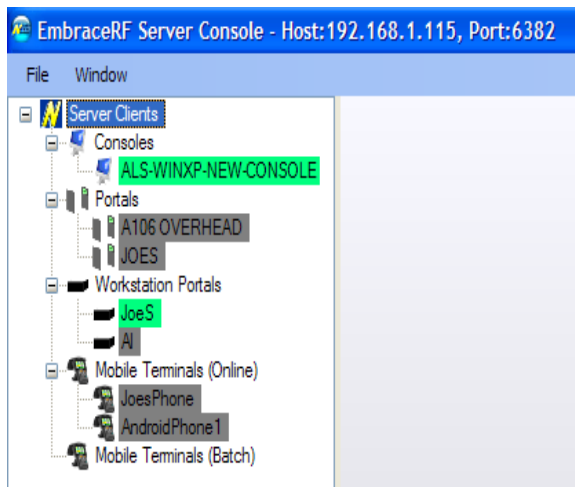

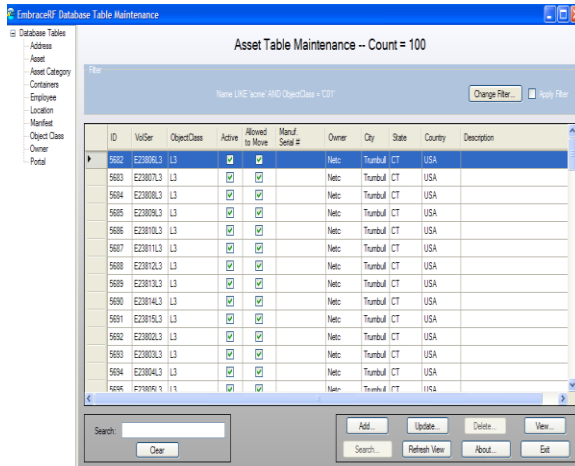

Netc *Embrace*^{RF}

- **Benefits for Regulatory Compliance**
  - Better inventory control
  - Improved data tape asset accounting, tracking, control and auditing
  - Security of sensitive, high-value, high-vulnerability assets
  - Increased security for assets containing customer information
    - Enhanced "chain of custody"
    - Audit trail of ownership & physical location
    - Limit data loss liability

Netc *Embrace*^{RF}

- **Advantages of Using RFID to Track Tape Assets**
  - Faster, more accurate and timely tape library audits
  - Enhanced tape library moves and consolidations
  - Comprehensive asset histories and audit trails reduce errors in recording asset movements and statuses
  - Reduced asset loss or theft due to management alerts when assets aren't where they should be
  - Automated processes that result in significant savings in time and labor costs
  - Management dashboards and reports to help monitor key performance indicators and tape location
  - Competitive advantage in marketplace

Netc *Embrace*^{RF}

- **_Embrace_^{RF} Asset Management System**
  - Open System Architecture
    - Works right out of the box
    - Easily interface with external systems
    - Scalable
    - Flexible
    - Seamless Integration
    - Customizable
  - ROI < 12 months
    - Fast, seamless, integrated deployment
      - Saves time, labor, $$$ - ongoing basis

Putting it all together with *Embrace^RF*

Flexible, scalable, cost-effective, cloud-based RFID technology you can identify with!
