

DEKRA

Accredited Certification Body

What are you looking for?

People, products and companies require expertise and independence. Founded 80 years ago, DEKRA Certification, Inc. has played a significant role contributing to product safety and quality management aspects ever since. As from the end of 2009, the company forms part of the DEKRA group. As genuine full-service safety and quality experts our footprint today has been made throughout 35 countries worldwide.

One of our main goals at DEKRA is not simply to assess clients based on their compliance with a standard but to add quality as a result of the auditing process. We refer to this as *value-added assessment*. Our demonstrated integrity has earned us the trust and approval of the FDA and the European Union, and the SCC, allowing us to fast track your products to approval if required.

About DEKRA

The DEKRA group employs 21,000 professionals, active in 35 countries throughout the world. The Business Unit DEKRA Industrial, under which DEKRA Certification, Inc. resides, offers a broad range of complementary services and enjoys a leading market position in industrial testing services. The Business Unit Industrial has over 5,000 employees, 6 service lines, multiple competence centers in industry, environmental protection and health and safety at work, real estate and certification services. Our high quality range of services caters for more than 70,000 industrial customers.
