

NEW CLASS III LED BEACONS

We are excited to announce the release of our new Value LED Beacons!

NEW

NEW VALUE-CHECK™ LED BEACONS

The new Value-Check™ Class III LED Beacons are designed to provide reliable performance and exceptional value for lighter duty applications. These lights feature an easy twist-on, UV-stabilized polycarbonate dome which encases a 26-light LED circuit that delivers bright visibility.

Value-Check™ LED Beacons meet SAE J845 Class III requirements and include a flange mount with three pre-drilled holes for permanent mounting, enhanced ferrite magnets for temporary mounting, and a 15 ft tangle-free straight cord with an on/off switch on the power plug for easy light control.

MEETS SAE J845 CLASS III REQUIREMENTS.

ECONOMY LED SPECIFICATIONS

Lens Color	Amber or Green
Operating Voltage	12 Volts, DC
Amps	.05 Amps @ 12 Volts, DC
Flash Pattern	1 Flash Pattern
Flashes Per Minute (FPM)	270 Pulse Flashes
Lumen Output	83
LED Count	26
Base Diameter	5.1 Inches
Overall Height	3.75 Inches
Mounting	Flange mount includes three pre-drilled holes for permanent mount, enhanced ferrite magnets, and 15 ft straight cord with an on/off switch on the power plug
Approval	Meets SAE J845 Class III
Temperature Range	-60° F to 140° F (-50° C to 60° C)
Warranty	6 Month No Hassle Warranty

- Ideal for use in light duty applications
- Includes 26 LEDs for increased visibility
- Easy twist-on dome made from durable, UV-stabilized polycarbonate
- Base made from ABS plastic
- Flange mount base includes three pre-drilled holes for permanent mounting, enhanced ferrite magnets for temporary mounting, and a 15 ft tangle-free straight cord with an on/off switch on the power plug
- Power cord switch allows user to easily turn light on or off without leaving driver seat
