Obeo Property Website Features

All of these features are included with every full-service photography package or self-service tour that Obeo provides.

FEATURES	DESCRIPTION / BENEFIT
24/7 Listing Information	The Obeo property website virtual tour is available 24 hours a day to promote your listing and give potential buyers the information they need.
Choice of Photography	Obeo's virtual tour viewer will accommodate multiple different photography packages consisting of still photos and 360 degree panoramas.
Listing Details	Login to the Obeo Members Area to add/edit any of your listing information at anytime.
Detailed Statistics	See how much traffic your listing is getting, where it's coming from and automatically e-mail your sellers with this information.
Lead Generation	Obeo virtual tour provides several opportunities to capture new leads from potential buyers. These leads are e-mailed to you and can be viewed from your Obeo Member's Area.
YouTube Video Creation	We use the photos of the property to create a video of the home and post it to YouTube.
Listing Syndication	We automatically distribute your listings to major real estate websites for more exposure of your properties.
Social Syndication	You can setup Obeo to automatically post your new listings to your personal Facebook, Twitter and YouTube channels.
Design Customization	Modify default appearance of your Obeo virtual tour to match your branding by changing the background color, text color and display images.
Customized Tools	You have control over the tools and can hide most of them from your listing. You can also change where some of the tools link to and point them to your own custom web pages.
Floor Plan	If you have a floor plan image, you can post this to the tour at no additional cost.
Photo Download	Download the photos we have taken of the property in 5 different sizes, including the original high-res images.

MOBILE FEATURES	DESCRIPTION / BENEFIT
Responsive Design	Designed in HTML 5, every consumer will have the exact same experience regardless of the device they are using.
Mobile Agent Site	We also create a mobile website just for you that includes your contact information and all your Obeo listings.
Mobile Push	From the Obeo virtual tour, type in any cell phone number to send a text message with the property information, maps, driving directions and photos to any mobile phone.
Touch Screen Friendly	Designed to be interacted with any touch screen devices
QR Codes	We provide you with a QR code for each of your listings and your mobile website that can be scanned with a smart phone.
Text Code Lead Generator	Market your free text code and just sit back and collect the leads that flow in!

TOOLS	DESCRIPTION / BENEFIT
