Arnold -
Guitar
Guru with an
international
following

Stuart
Hamm -

The
bass player's
bass player

Mimi
Fox -
One of the
great
solo jazz
guitarists

What makes The Guitar Intensive Workshop different?

- Geared toward the intermediate to advanced student of guitar or bass
- Each one week Workshop offers courses on often neglected subjects like music theory, time studies, ear training and sight reading.
- The Workshop travels to different major cities, making it more accessible to a wider audience.
- Downloadable textbooks for the Workshop are available free of charge to students.
- The Intensive offers one-on-one lessons, as well as ensemble performances that culminate in a gala concert in which the instructors participate.
- Ongoing support *after the Workshop ends*, through Skype lessons and FAQ sections of the Workshop site.
- Besides being world class musicians, faculty has extensive experience at some of the nation's most prestigious educational institutions.

Students perform a duet at a workshop at NYU
