

Always Improving, Corepoint Health Named Health IT's Top Interface Engine by KLAS® for Fifth Consecutive Year

Corepoint Integration Engine earns highest overall score among health IT interface engines

January 30, 2013 – DALLAS – For the fifth straight year, [Corepoint Integration Engine](#) was named Category Leader for the [interface engine segment](#) in the *2013 Best in KLAS: Software & Services* report. The gold standard *Best in KLAS Report* annually ranks healthcare technology products based entirely on feedback from health IT professionals and clinicians.

The *2013 Best in KLAS: Software & Services* report summarizes performance data from the past 12 months. Included in the report is a ranking of the top vendors overall, as well as a ranking of the top vendors in key areas of performance.

According to the report, Corepoint Health has continued to increase overall scores even while holding the top ranking. Corepoint Integration Engine received the highest overall score, 97.7, in the [Interface Engines market segment](#).

According to anonymous KLAS report feedback:

“Without the ease of use and focused healthcare interface functionality from Corepoint Integration Engine, we would not have been able to deliver the massive number of interfaces required for our Epic implementation across 27 hospitals in just 2 years.” – Manager (Collected about Corepoint Integration Engine by KLAS in October 2013 ©KLAS Enterprises, LLC. Corepoint Health CEO Phil Guy said earning the award for the fifth straight year is an accomplishment made possible only through active partnerships with customers of all sizes, from major health systems with large IT staffs to rural hospitals dedicated to providing quality patient care.

“From our timely interactions with our customers to the intuitive features in Corepoint Integration Engine, Corepoint Health keeps our customers’ health data integration needs at the forefront of everything we do. We will continue to set the industry standard in health data exchange through products that make interoperability easier for busy IT departments,” Guy said. “Reliability and trust are two qualities that health organizations demand of their IT department, and Corepoint Health has proven time again to be the top choice of innovative care organizations.”

The *2013 Best in KLAS: Software & Services* report is available to healthcare providers online for a significant discount off the standard retail price. To purchase the full report, healthcare providers and vendors can visit www.KLASresearch.com/BestinKLAS.

About Corepoint Health

Corepoint Health delivers a simplified approach to internal and external health data integration and exchange for hospitals, radiology centers, laboratories, and clinics. Corepoint Integration Engine has been named the #1 interface engine for five consecutive years, 2009-2013, in the *Best in KLAS: Software & Services* report. Our software solutions help healthcare providers achieve interoperability goals and create

operational leverage within their care organization. Our approach significantly reduces demands on IT staff and budget.

About KLAS

KLAS is a research firm on a global mission to improve healthcare delivery by enabling providers to be heard and counted. Working with thousands of healthcare professionals and clinicians, KLAS gathers data on software, services, medical equipment and infrastructure systems to deliver timely reports, trends and statistical overviews. The research directly represents the provider voice and acts as a catalyst for improving vendor performance. Follow KLAS on Twitter at www.twitter.com/KLASresearch.
