Why OpenXcell ?

We have laid a solid foundation since 2008 and here are the few reasons why we still sustain and top the list.

Credibility :

Having formed in 2008, we have taken quantum leaps in our growth. Being awarded twice the best software development company we have the fastest growth rate along with customer satisfaction.

Experience :

We have successfully designed and deployed more than 700 Projects ever since we started.

Clients :

We have some of the very famous names as our clients: Nvision Studio, UTV Movies, Unilever, Pedigree, American Express, Omron, Icelandair.

Strength :

In mere span of 4.5 years Openxcell has strength of 160+ experts, with some award winning designers, highly experienced project managers and technical team.

Security :

At OpenXcell, confidentiality of your project and security of your data is of utmost importance. We have competent measures to ensure security.

Certifications & Partners :

OpenXcell is an ISO 9001:2008 & Nasscom certified company. We are members of International Game Developers Association (IDGA) and Gujarat Electronics and Software Industries Association (GESIA).

Global Hideouts :

OpenXcell's Creative engineering, design and deployment team based in India also has its offices across USA & Australia allowing clients continuous support across scale and geography.
