

**PRESS RELEASE
FOR IMMEDIATE DISTRIBUTION:**

Vantec Expands EZ Swap Series with Single and Multi-Bay Backplane Mobile Rack.

The New Vantec EZ Swap M2500 and M3500 Series offer the flexibility to customize storage for multiple applications using consumer to enterprise hard drives and SSDs.

FREMONT, USA – February 7, 2014 – Vantec Thermal Technologies—a worldwide leader specializing in computer accessories, storage and mobile solutions—announces two new additions to the EZ Swap line of storage designed for multiple application ranging from business class servers to cloud mass storage.

These two series provides easy storage integration for servers, workstations, or mass storage unit. Built with lightweight Aluminum alloy frame and active cooling fan, the new EZ Swap offers both excellent strength and heat dissipation to protect your critical data. The patented springs dampens noise and vibration and help extend the life of the drives. Individual tray locks are designed to secure the drives and the quick guide rails allows for smooth Hot Swapping. Featuring the latest 6Gbp/s technology, the EZ Swap M2500 and M3500 offers the versatility to add SATA, SAS, Desktop, Laptop HDDs or SSDs in any combinations including RAID arrays with ease.

The M2500 series comes in 4, 8, or 12 trays model for 2.5" HDD/SSD drives, while the M3500 series offers 1, 3, 4, or 5 trays for 3.5" or 2.5" HDD/SSD design. Both series have the flexibility to add either SATA or SAS drives.

The EZ Swap M2500 and M3500 Series will be available on the market this February. For additional product information and full technical specifications, please visit www.vantecusa.com.
