

San Francisco Superior Court Selects One Legal LLC as an eFiling Provider

NOVATO, CALIFORNIA – FEBRUARY 3, 2014 – On January 24, 2014, the Superior Court of California, County of San Francisco, executed a contract selecting One Legal LLC as an Electronic Filing Service Provider (EFSP). The Court awarded the contract after a competitive Request for Proposal (RFP) process ranked One Legal as the winner of the bid among four providers who participated in the process. The Court initiated the RFP process in an effort to comply with California Rule of Court 2.253(b) and CCP 1010.6.

"We're very happy that the San Francisco court has selected us as an eFiling provider," said Robert DeFilippis, President and COO of One Legal, which is a California company with several branches in the Bay Area. "This contract provides us the opportunity to work within our local community while supporting the Court's strategic plan to implement mandatory eFiling." The Court's project, which began in September 2012, is intended to support its strategic plan to use technology to improve service to the public, save money and reduce paper use.

As California's File & Serve leader, One Legal is well-versed in the benefits of eFiling and eService. With successful implementations in the Orange County and San Diego Superior Courts, the 2nd and 3rd largest courts in California, respectively, One Legal has been at the forefront of building technology solutions for courts and taking the lead in onboarding and training the civil legal community at large. "We've found that customers like the ease of our solution," said Jeff Karotkin, Vice President of Strategic Development. He added, "Our team is very focused on both our customers and our products and we strive to improve the customer experience on a daily basis. Our solutions have helped our customers streamline their filing tasks and provide added value, such as hosting the file-stamped conformed copy right in our system so customers can access it anytime, 24/7."

Since the signing of the contract, One Legal has been aggressively moving forward with the technology integration needed to support the court's vision. Once the eFiling product is available, One Legal plans to offer competitive pricing and free training.

About One Legal LLC - Based in Marin County, California, One Legal is committed to bringing court communications into the 21st century and is the established leader in Online Court Services and Litigation Support for Court Filing, Court eFiling, Nationwide Process Serving, Skip Tracing, Public Records Search and Document Retrieval of Court Records.
