

**Dynamics** customers no longer need to compromise when shopping for a single product that offers budgeting, forecasting, consolidation, financial reporting and analysis.

### No Compromise, Enterprise-Quality Corporate Performance Management (CPM)

Budgeting, Forecasting, Consolidation, Financial Reporting and Analysis

**deFacto** Performance Management delivers the best performance management capabilities in a single tool that is powerful, versatile, easy to use and deploys in as little as two weeks.

**deFacto** is the *only* CPM product Dynamics customers will ever need. It's powered by Microsoft's enterprise-quality Business Intelligence architecture composed of a native Excel interface and a SQL Server-based relational/multidimensional data warehouse.

**deFacto** was built from the ground up by world-class CPM experts and it outperforms virtually every competitor including Oracle, IBM and SAP. **deFacto's** packaging and pricing makes it a great value for companies of all sizes.

## deFacto Is Proven with Dynamics Customers Across Markets

AX, GP, NAV, SL and CRM

**deFacto** is powerful and versatile enough to meet the needs of any Dynamics customer. It offers a comprehensive set of CPM capabilities, the highest performance and most scalability of any competing product.

**deFacto's** capabilities are fully integrated, incorporating pre-built financial and operational models, and managed in a shared data warehouse.

**deFacto** is the only Dynamics CPM tool that utilizes the complete set of Microsoft BI technologies.

- 100% native Excel, along with all of its capabilities, as its User Interface.
- SQL Server for superior capabilities to store and manage vast amounts of data.
- Analysis Services, SQL's core BI engine, to provide unmatched performance, data modeling, analysis and reporting.

**deFacto** comes with Instant Connectors for Dynamics ERP/CRM and also integrates with virtually any other data source.

**deFacto's** employees and partners are the most knowledgeable, professional and customer-success orientated in the Dynamics ecosystem.
