

# PROFESSIONAL EDGED WEAPONS DEFENSE

Proudly Hosted by: WAYNE BLACK & BRYANT SECURITY

Where: 2035 Harding St, Hollywood, FL 33020 (see map below)

When: February 22-23, 2014 (Sat/ Sun)

Course Length: 2 days

Times: Saturday, February 22, 2014 from 09:00-16:00 Hours (9:00AM – 4:00PM)  
Sunday, February 23, 2014 from 09:00-16:00 Hours (9:00AM – 4:00PM)

**Course Description:** Specifically designed for LEO/ DoD/Executive Protection application, this vetted program of instruction provides you the skills for your protection with and against an edged weapon. Focused squarely on firearms handling and defensive tactics, this course is NOT martial arts and this is NOT “knife fighting.” This IS a professional protective services approach to doing what it takes to handle a violent edged weapon attack utilizing a firearm and/ or your bare hands. This IS an opportunity for you to take home solid field-tested DT from a federally certified firearms instructor and widely respected edged weapons expert from the defense intelligence community. This POI will allow you the opportunity to develop and utilize your instinctive reflexes to solve difficult

threat engagement problems. Bring a (blue/ red/ inert) training gun with matching holster in the carry position you normally carry (IWB, OWB, etc.) Remember that you will react in the way you were trained so the very best value for your dollar is to train the way you regularly carry.

**Course Content:** Selection: What should I look for in a knife? How should it fit my hand? Access (where and how to carry) and rapid deployment of a fixed, folding or improvised blade. Do's and Don'ts of utilizing a blade in an actual threat engagement; Protecting your exposure of lethal target areas; Real-world Scenarios (single/multiple threats 360 approach); Managing the fateful Injury/Distance liability gap; Unarmed defense and disarming; Hostage Escape Scenarios; Ground Recovery Options: how to

use a blade to get back up on your feet after being knocked down by multiple attackers; Unarmed Defense versus a Machete; Stalemate Response Series, Mastering force vectors, Protective

services blade handling skills (learn how to react like a trained protective agent); Handling multiple assailants; and a rare training block on how to use curved blades (Karambit) and other non-traditional edged weapons.

**First Come First Serve:** This registration notification will be available for a VERY limited time as this course is established on a first-come-first-serve basis and is already filling to max capacity. Once you have successfully registered, a confirmation notice, payment receipt and additional instructions will be sent prior to course delivery dates. Once the course is full, registration will no longer be available for this class.

**\*\* YOU MUST BE AT LEAST 21 YEARS OLD AND HAVE A VALID DRIVER'S LICENSE \*\***

**Cost per Attendee:** \$ 275.

**Prerequisites:** NONE – THERE ARE NO PRIOR TRAINING PREREQUISITES. This is NOT martial arts. This is NOT “knife fighting.” This IS a professional protective services approach to doing what it takes to get yourself and your protectee(s) out of trouble and to safety. This IS an opportunity for you to take home solid field-tested Edged Weapon defensive tactics.

**About your Instructor:** Serving the federal training community for more than 25 years, Steve Tarani is a respected Protective Programs subject matter expert (SME) and service provider to numerous high/low-profile US federal agencies and the private sector. Specializing in operational readiness, he is a federally certified firearms instructor actively contracted by the US Department of Defense, National Security Agency, Federal Bureau of Investigation, Department of Homeland Security, Drug Enforcement Administration, and many others. Formerly sworn, Mr. Tarani is himself a former US Defense Intelligence employee (CIA), Protective Programs Educator and formerly on staff at the US DOE National Security Institute (Security Force Training Dept.) at Kirtland Air Force Base (NM). At the time of this writing, he is a published author of eight books and remains an advisor to the US Department of Justice (USDOJ) and the International Association of Chiefs of Police (IACP). He is additionally a knife designer (Buck Knives, Strider Knives, 511, etc.) and the architect of IACP Model Policy on the carry and usage of knives by federal, state and municipal peace officers.
