

THAIN SITES FEATURES

EVERYTHING YOU NEED. THE KITCHEN SINK TOO.

Face-to-face appointment · Easy to use tools · 24/7 support · And more

THAIN SITES

New, old school

Building websites for humans.

Our process revolves around working with our clients face-to-face at the same table. This is the only way we can build high-quality websites in a few hours. We save time, you save money and the smoke and mirrors around building your website, disappear like magic.

You're in control

The right tools and 24/7 support.

When you have the right tools, managing your website is effortless. We build every one of our websites using Squarespace. It's the most refined publishing platform in the world. If you can use programs like Microsoft Word and Email, you'll have no trouble managing your website and making updates.

Built to grow

Websites designed to last.

Thain Sites is just the starting point to a successful online presence. We have packages to suit every size business in Barrie, and we're always vetting new initiatives. We even offer services to help you maintain and grow your website. [Learn more on our pricing page.](#)

BUILT RIGHT IN-FRONT OF YOU.

A standard, small business website can start at \$3,000 and climb up to \$10,000. It's because the process isn't designed for small business. We wanted to make websites quick and affordable, but without sacrificing quality. With cutting edge tools, we're able to design your website in-front of you to allow you more creative control. It's about getting the job done right the first time.

TOOLS THAT ARE EASY TO USE.

You run a business, and that means your job isn't to understand the inner workings of a website and code. Your job is also not to chase around a web designer to make changes or updates. We give you easy to use tools that are powerful enough to have complete control of your website always.

You also get access to Squarespace's legendary 24/7 support.

FULLY CONNECTED

The beauty of an integrated system is that you'll be able to stay connected. You can connect all your social media profiles, email accounts, contact info (and much more), right out of the box. Your website can share things to your connected services, and receive things as well. Everything you need is built in and controlled from your website, so there's no extra complicated tools to use.

ROCK SOLID FOUNDATION.

Under the hood of every Thain Site is the best publishing platform available. [Squarespace](#) has spent over a decade perfecting online publishing with a brilliant team of over 200 people. It was a no-brainer to use Squarespace. With award-winning 24/7 support, always online cloud hosting and industry leading SEO. This is the best online platform for small business. We work closely with Squarespace every day.

WHAT REALLY MAKES A THAIN SITE.

READY BY TOMORROW

With this new and unique process, you can have your website ready for tomorrow. We already have everything in place and prepared for you, all it takes is to apply.

FACE TO FACE

Today, building a website means endless emails and phone calls back and forth to get it done. Instead, we build your website in-front of you. We'll be finished within a few hours, all in a relaxed environment.

ALL INCLUSIVE, SIMPLE PRICING

One price covers everything required for us to build you a small business website. There's no hidden fees, scouts honor, and 1 year of hosting is included.

TRAINING & SUPPORT

We want to make sure you're confident to have complete control of your website. We will teach you everything you need to know, and answer any of the questions you have, all while building your website.

PAY OVER THE COUNTER

This is a process that's designed to be quick and simple. We develop your site, you pay just like you would at a store and then you can leave happy, with no invoices.

REAL SEO

It's important to properly establish your website online, which is one of the most important and difficult tasks. We handle everything, and ensure your website showcases your authentic voice.

CUSTOMIZED FOR YOU

We've taken the time to build onto the [Squarespace](#) platform to tailor it for small business. From the smallest improvements like rounding corners on buttons, to building entirely new features, like our sharing bar.

PROFESSIONAL EDITING

We've built a solid reputation for creating quality brands. We're taking that knowledge and applying it to your website and fine-tuning your copy to ensure your customers understand your message.

BRANDING & LOGOS

We can take your website even further with a custom brand identity, our other specialty. We have worked with the best businesses in Barrie to create beautiful, impacting logos and brands that work. [Learn more.](#)

QUESTIONS? - (705) 327 4588

Available only in Barrie Ontario and surrounding areas. We look forward to bringing the Thain Sites experience to more people as we move forward. [Questions?](#)
