

GET YOUR DUCKS IN A ROW WITH

DentalWriter™

Medical Billing & Diagnostic Report Writing Software
Dental Sleep Medicine • Implants • TMD • Perio

You do the Patient Work.

DentalWriter does the PaperWork!

SAVE TIME,
INCREASE REVENUE
& PROFITABILITY

Medical Insurance Reimbursement Success

Streamline billing with cross-coding, automated claim forms and e-billing. Maximize reimbursement success and minimize risk with easily generated proper documentation, reports and letters.

Grow Your Practice with Referrals

Give physicians the confidence to refer patients to your practice by speaking their language, providing autogenerated follow-up reports on patient care and treatment plans.

The Support You Need, When You Need It

DentalWriter practices have access to the largest team of experts in the industry. From claim support, training and ongoing education to technical support and product enhancements, you can depend on us to make your practice goals a reality!

Proven Protocols Guide You to Success

DentalWriter Navigator guides you and your staff from consultation to continuing care with comprehensive and customizable step-by-step protocols, helping you efficiently and effectively implement new services.

Differentiate Your Practice and Gain Greater Case Acceptance with DentalWriter!

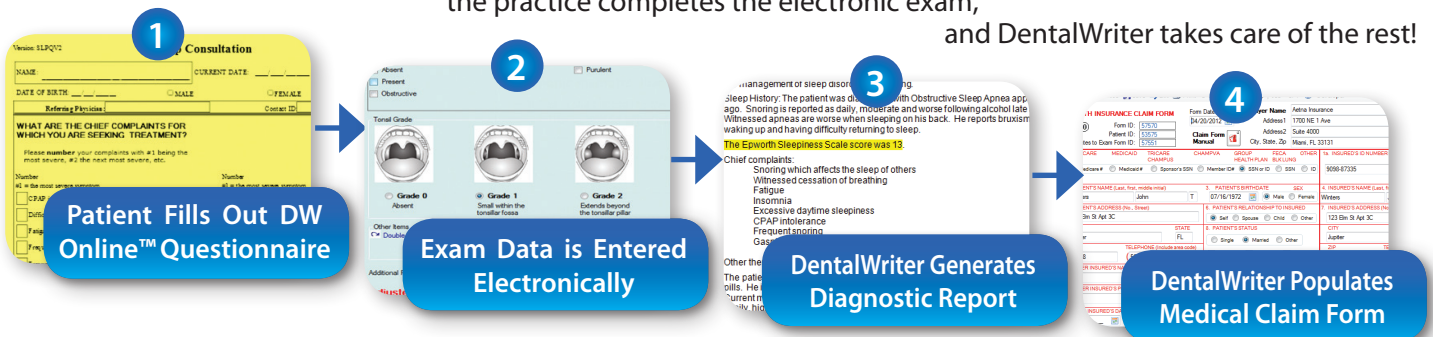

“I've been using DentalWriter software for 20 years. It has consistently gotten us the best results with filing our medical claims and corresponding with our medical counterparts. The improvements and updates over the years keep it current and relevant in today's practice setting.”

-John T Hauge, DMD

Your patients fill out the online questionnaire,

the practice completes the electronic exam,

and DentalWriter takes care of the rest!
