iPatientCare Showcasing Secure Messaging Solutions at HIMSS14

iPatientCare EHR Facilitates Transition of Care enabled by Secure Messaging Solutions with Patients and other Providers

iPatientCare, Inc., a pioneer in mHealth and cloud-based ambulatory EHR and Integrated Practice Management solutions announced to Showcase iPatientCare Secure Messaging Solutions which facilitates Transmission of Care among providers and patients at HIMSS 2014 Annual Conference at Orlando, FL, February 23-27, 2014.

iPatientCare products improve patient care, increase patient engagement and reduce overall healthcare costs. As an industry innovator in achieving real-time interoperability with Electronic Health Record (EHR) systems, iPatientCare Showcasing HISP Secure Direct Messaging Solution to enable the secure exchange of healthcare information with other Electronic Health Records (EHRs), Health Information Exchanges (HIEs) and Health Information Service Providers (HISPs). iPatientCare HISP enables communication amongst care providers both within and outside of the iPatientCare network. It is secure messaging solution that is Direct-compliant to support Meaningful Use Stage 2 Transmit requirements, and which can be implemented through a variety of flexible deployment options.

"HIMSS draws healthcare IT leaders from around the world where they are more concerned how technology can solve business challenges and provide better, patient-centric care. We are poised to deliver value to our customers beyond EHR-to-EHR interoperability, extending information exchange to the systems used by providers, payers and patient to provide better care coordination and improved transition of care", said Shripal Shah, Senior Technology Officer, iPatientCare.

"iPatientCare is committed to delivering innovative, interoperable enterprise software and services solutions to help healthcare providers evolve from traditional care models to ones that are technologically enabled to deliver better outcomes and optimize quality of care", said Udayan Mandavia, President/CEO, iPatientCare.

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company is known for its pioneering contribution to mHealth and Cloud based unified product suite that include Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and mobile point-of-care solutions that serve the ambulatory, acute/sub acute, emergency and home health market segments.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at **ONC Certified Health IT Product List.**

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).

The company has won numerous awards for its EHR technology and is recognized as an innovator in the field, being a pioneer to offer an EHR technology on a handheld device, an innovative First Responder technology to the US Army for its Theatre Medical Information System, the first to offer a Cloud based EHR product. iPatientCare is recognized as one of the best EHR and Integrated PM System for small and medium sized physicians' offices; has been awarded most number of industry Awards; and has been recognized as a preferred/MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and academies.
