## Quality Ballet Barres

### Description

Custom made and installed, quality ballet barres for dance studios, rehearsal and performance spaces. Each barre is custom designed for the required space and finished to client's specifications. The 48mm Tasmanian Oak rails provide a sturdy barre for rehearsal and performance spaces.

The completed dance barre can be fixed from wall brackets or from floor stauchions. Brackets and stauchions are made of steel and provide the required support. All barres are powder coated for a clean finish. Portable dance barres are also available for mobile use.

Wall brackets and stauchions are normally located at 1.8m centres, although can be made to specific requirements.

### Features

- Quality materials
- Professional finish
- Custom made to your requirements
- Sturdy
