

**EC-COUNCIL PRESENTS:**

---

# **GLOBAL CISO FORUM 2014**

**ATLANTA, GEORGIA OCTOBER 16 & 17TH**  
**GEORGIA WORLD CONFERENCE CENTER**

**C CISO**  
Certified Chief Information Security Officer

# JOIN US FOR EC-COUNCIL'S 5TH CISO FORUM

The Global CISO Forum (GCF) is EC-Council's annual CISO event that brings CISOs from all over the world together to focus on the real information security threats to nations, companies, and networks. The GCF is held in conjunction with Hacker Halted, EC-Council's largest and most popular security event, creating a mix of executives and hackers.

## HISTORY OF EXCELLENCE

EC-Council's prior events in Las Vegas, NV; Miami, FL; St. Louis, MO; Atlanta, GA; have been highly valuable events for our attendees and sponsors. Here's some of the feedback we've gotten from our attendees:

- ➔ "Excellent insight into an alternate definition on risk and how to answer the question "Are we secure?"
- ➔ " ... I got a great idea during the panel discussion for an IP awareness campaign."
- ➔ "... differing views are best made available in conferences such as the EC-Council CISO Summit. Within these venues, lively discussions explore topics that are of interest to all security managers."
- ➔ "It was a truly wonderful event. It's very healthy for information security executives and professionals to get together to share what's working in their own organization for the betterment of other organizations as well."
- ➔ "... very well organized with a good mix of talent from diverse industries. The topics were excellent and targeted to the need of the industry today."

## CISO AWARDS

### C | CISO OF THE YEAR

This award, available only to EC-Council Certified CISOs (C | CISOs), recognizes an individual's outstanding work in information security. We will be honoring one C | CISO who has contributed to the information security industry, shown tremendous professional growth and achievement, and has promoted strong, innovative security practices.

### CISO OF THE YEAR

This award was open to only VPs and C-Level information security professionals who have shown tremendous growth and who have impacted the security industry with their innovation and commitment.

### CIO OF THE YEAR

This award, available only to Chief Information Officers (CIOs) recognizes an individual's outstanding work in information security. Good CISOs know that security cannot be achieved without the support of management. This award, available only to Chief Information Officers (CIOs) recognizes an individual's outstanding work in information security. Good CISOs know that security cannot be achieved without the support of management.
