SUMMARY: HonestyFirstReviews.com releases a review of Heather Matthews' Manifestation Miracle, a recently launched course for people interested in harnessing the "laws of the universe" in order to achieve success and happiness.

Manifestation Miracle – a new personal development program has been creating a great deal of excitement in the personal development community, prompting an investigative review from HonestyFirstReviews.com's Tiffany Hendricks.

“These days it seems like more and more people are coming to the realization that something important is missing from their lives—whether it be career satisfaction, spiritual fulfillment, love or happiness.” reports Hendricks. “And while there’s no shortage of personal development products out there by people who claim to have discovered a technique to help you find success and happiness in life, Heather Mather’s program reveals a unique method—the ‘lazy person’s secret’—which promises to enable the user to force the universe to help improve in a myriad of ways, all with very little or no effort. For this reason alone, I was very eager to take a look at this course to find out whether it was a program we would be able to recommend to our website visitors.”

Manifestation Miracle was developed by Heather Matthews—who is a widely recognized and well-known transformational speaker and life coach. Heather Mathews has a reputation for helping people attain their goals without having to do the long, drawn out visualization exercises common to some other personal development programs. Indeed, Manifestation Miracle’s entire program is designed so that, eventually, little or no effort will have to be expended by the user of the techniques learned in the Manifestation Miracle program, to achieve his or her goals.

“Our Manifestation Miracle review explains that Heather Matthew’s course is loaded with powerful techniques, which are all designed to teach its users the keys to achieving happiness and success in life.” says Hendricks. “In particular, Manifestation Miracle teaches its users a transformative technique called 'destiny tuning' which is designed to make 'the law of attraction' work for them so as to enable them to get exactly what they want, when they want it.”

Based on her research of the course, Hendricks concludes that she “anticipates a lot of people will be delighted by what they learn in Matthew’s course because the material contains easy-to-follow, yet powerful methods and practices, designed to help people improve the quality of their lives.”
