## EXPIT INSIGHT FOR MICROSOFT® SYSTEM CENTER 2012 - SERVICE MANAGER

## THE VALUE OF USING EXPIT INSIGHT WITH SCSM

Expit EnSight for Service Manager 2012 provides a comprehensive view for events in Service Manager tailored for IT decision makers.

With EnSight, users can easily sort, group, classify, graph and create reports for Service Manager 2012 without requiring a data warehouse. The dashboard also provides readymade KPI metrics, workflow status monitoring, and team workload management. Expit EnSight does not require any server or database components and can be setup and operational in less than 5 minutes.

Expit EnSight is available for download from the Expit website.
