

## **Auto Binary Signals: Review Examining Roger Pierce's "Superhuman" Options Trading Software Released**

*HonestyFirstReviews.com releases a review of Roger Pierce's Auto Binary Signals, an automated binary options trading software.*

Auto Binary Signals—which provides binary option trading signals based on Roger Pierce's “top secret” trading formula has generated a lot of excitement among options traders. The buzz surrounding this product has attracted the interest of Tiffany Hendricks of HonestyFirstReviews.com, prompting this investigative review.

“Binary options can be a very attractive market for traders at all levels of experience,” says Hendricks. “A lot of people, however, can be intimidated given the risks involved. That’s why, the idea of an automated, binary options software that minimizes the risks and increases the potential for success is so exciting. So when I heard about Roger Pierce’s Auto Binary Signals software, I was eager to get the chance to review the product.”

Auto Binary Signals is available online and is compatible with both Windows and Mac computers. Once a broker has been chosen, the user watches a webinar, which containing a wealth of information on the software and how to use it most effectively. Then, users are introduced to a series of case studies and tutorial videos, which serve as a comprehensive introduction on how to utilize the software properly to maximize one's potential for successful trading.

“Our Auto Binary Signals review explains that we were impressed with how easy the software is to use,” reports Hendricks. “The system comes with a great deal of training to help beginners learn more about binary trading, and not only that, but the software does all the hard work for you so the only thing the user needs to be able to do is follow simple instructions. In the end, our review explains that we were impressed with this product, overall. The accuracy rate of algorithm combined with the easy-to-use interface makes this product a smart investment for anyone looking for a new tool to help to improve their success with binary options.”
