

Innovative Underwriting Training and Education Program Receives CE Accreditation

CE Accreditation granted to the LOGiQ³ Underwriting Training and Education Program by The Institute for Advanced Financial Education (I.A.F.E).

Toronto, ON, April 28, 2014 - [LOGiQ³ Corp.](#), an expert provider of life insurance and reinsurance consulting and outsourcing services has been providing training and education to life underwriters and insurance advisors since 2007. In 2012, the company launched its Underwriting E-Learning solution at the Association of Home Office Underwriters (AHO) conference, offering an anytime, anywhere training and education program.

Today, LOGiQ³ is pleased to announce yet another milestone, the approval of CE accreditation by The Institute for Advanced Financial Education (I.A.F.E.) for all 24 modules currently available. More modules are scheduled to release in Q2 2014.

The I.A.F.E is the leading designation body in Canada for financial services practitioners in the specialty areas of Advanced Estate and Wealth Transfer, and Living Benefits. The CE Accreditation Service provides an impartial third-party review and approval process for CE programs developed for financial advisors and planners.

“This is a huge success for us. Our training and education program is suitable for Underwriters and professionals in the life insurance industry. We are thrilled our course has been approved for CE Accreditation which means life insurance and financial practitioners can now consider underwriting as part of their continuing education regime”, comments Carmela Tedesco, Vice President, LOGiQ³.

Upon successful completion of each module, the student is granted the corresponding number of CE credits assigned by The I.A.F.E.

The LOGiQ³ Underwriting Training and Education program may be delivered through a classroom setting or via an E-Learning Management System. The program is available as an individual or group (corporate) training solution. Interested parties can sign up for a 30 day trial at no cost. A list of modules and corresponding number of CE credits are available at <http://logiq3.hs-sites.com/logiq3-underwriting-elearning-course-syllabus-download>.
