

**green-claimed** /grēn-klāmd/  
(adjective)

a sustainable resource that has been reimagined, revived or recovered and transformed into something new - preventing waste and creating innovative design and new building materials

## Infinity™ Composite Decking

### The Composite Deck with Infinite Possibilities

Manufactured in the United States and made from 100% post consumer recycled materials with a 50/50 mixture of reclaimed oak/maple hardwoods from the furniture industry combined with recycled HDPE plastics from milk jugs and detergent bottles. Featuring InfinityShield™ protection and TrueOrganics™ Wood Grain this 16' composite decking will put an exclamation on your outdoor living space.

Beautiful, eco-friendly, Made in America and backed by a 25-year residential warranty...that's the Infinity™ promise.

- Made in the USA
- 100% post-consumer recycled materials
- Full 16 foot long deck boards for fast install
- InfinityShield™ superior surface protection
- Backed by a 25-year residential warranty

#### Made in USA

Leading the way in American Eco-Friendly Decking, all products and materials crafted right here in the U.S.

#### Recycled

Making products out of recycled materials means less waste in the landfills and a greener tomorrow

#### Reclaimed

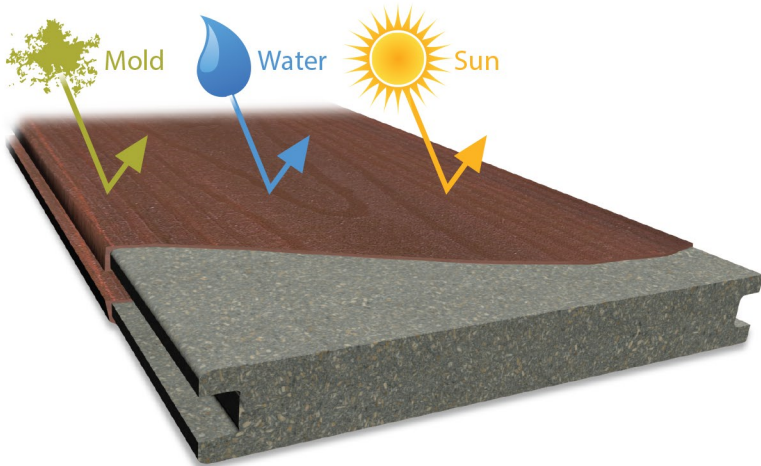

We bring a second life to these materials that show their former character and beauty
