

Weemo for Zimbra DATA SHEET

GIVE ZIMBRA USERS THE GIFT OF SIGHT A LIVE VIDEO CALL IS JUST A TOUCH AWAY

Weemo reconnects remote Zimbra users with video calling making collaboration easier across dispersed teams.

The Weemo Zimlet enables free video calling, file and screen sharing in a single touch. Simply look up a co-worker in the Zimbra address book, or respond to an email using the Weemo video icon; a live video call is just a touch away.

Upgrade to Weemo Premium and add up to 64 users to a video conference, even call and conference users outside the Zimbra network. Premium users also enjoy high quality video calling on iOS and Android devices.

A recent study revealed that seeing facial expressions and body language improves understanding up to six times over voice alone. Give your employees the gift of sight; enable the Weemo video calling Zimlet today.

INTEGRATED

Launch video calls from your Zimbra email or address book in a single touch

No need to start standalone applications
