

The **MouthWatch** Home Dental Monitoring System

For Pediatric Practices, Patients and their Families
Seeing Oral Hygiene Like Never Before

Visual **self-monitoring** benefits your practice

MouthWatch is a fun and informative way to engage children and parents in their dental care once their appointment is complete. Children love using the intraoral camera, and finally understand what proper oral hygiene is all about. All the while, patients and parents become more loyal and thankful for your quality care.

- ✓ Children and their parents can clearly see and improve oral hygiene habits by viewing the entire interior of their mouth while at home
- ✓ By enabling parents to more fully observe their child's mouth on a regular basis, attention will more quickly be drawn to an otherwise hidden issue, prompting them to schedule an office visit
- ✓ MouthWatch Desktop and Mobile applications allow your patients and their parents to regularly engage with your practice — sharing concerns, seeking treatment and scheduling appointments
- ✓ Reduce the challenges of "telephone triage" while reducing the patient frustration that comes with having to wait for the actual office visit

Product **information**

Each MouthWatch Home Dental Monitoring System includes:

- Intraoral USB camera
- www.mymouthwatch.com account
- MouthWatch mobile app
- 50 disposable sleeves
- Storage case
- 1 year limited warranty
- Satisfaction guarantee

Features

- ▶ Diagnostic quality images
- ▶ HIPAA compliant encryption and communication of images and messages
- ▶ Messaging is exclusive between patients, their families and your practice
- ▶ Easily set patient-specific care reminders for your practice
- ▶ Intuitive software makes responding to patients faster than a call
- ▶ Cameras work with many in-office imaging software systems
- ▶ Mobile app for iOS and Android

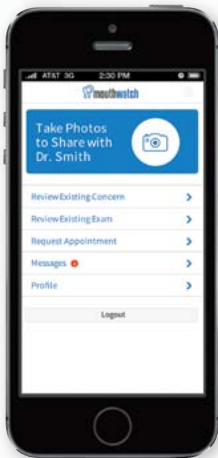

Reduce anxiety and **increase awesome**

- ✓ Children with special needs, such as developmental, physical or cognitive disabilities, those with Autism Spectrum Disorder, or anyone who may have hesitation or challenges in getting to the dentist's office can connect with your office easily and effectively
- ✓ When children travel or go away to summer camp or school, MouthWatch keeps them connected to your practice
- ✓ Offer patients and their parents a high-tech tool that increases education, enhances care and supports good habits, and your practice will generate amazing word of mouth marketing
